3- CONTEXT AND JUSTIFICATION OF THE PROJECT

The big part of the non development of many African nations including Benin is the oversight of the spirit of pure love and unity. The creation of this event is to reinforce the spirit of family and to implant the spirit of loving, unity and giving within children at a young age.

This project inserts a vision of the value of the genius that is children. Beyond this, it contributes to the joy of giving and the spirit of love and unity that is part of the grass root to a development of a country.

<**Christmas for Children**> is a channel through which we will like to further express the importance of the spirit of giving in society and education within an ambiance of festivities in the heart.

Our goal is to always strive so the children of today can be the great leaders of tomorrow and make the world a better place to live.

4- LONG TERM GOAL

To promote the genius that is within children.

3.1- SHORT TERM GOAL

- Develop a social exchange within children from different horizons
- Introduce children to the value that contribute to a constant and durable growth.
- Develop the spirit of love, unity and sharing.

5- EXPECTED RESULT

A hall full of entertainment and educational recreations will be available for children. Gifts will be distributed to children around a complete buffet.

6- PROJECT DESCRIPTION

In order to execute this project the details must be carried out step by step. We require a period of three(3) months to conclude this event successfully. We will have criteria set up as for the selections of the deserving children. It will be total of one hundred (100) children selected from ten (10) schools.

Gifts will be given out by Santa Claus to the children that participate in the event and additional prizes will be given to the three(3) most deserving children.

We will also have contribution from various local artists that will be present.

The goal of this event is to give another perspective to the celebration of Christmas._
